HOW THE TRAGEDY OCCURRED.
It was on the last run of the soldiers on the cars that the tragedy of the day occurred. The cars were on a track moving northward and a constantly swelling crowd was gathered about the Union depot. The first of the work-day folk had been released by the whistles that sounded through the manufacturing district, and they were pouring into the crowd. Near Columbia street a truck blocked the way of a car, and, urged on by the crowd, the driver refused to move on as speedily as desired. Some one in the crowd threw a stone, but it went wide of its mark. The crowd was very noisy and there was much confusion. The car finally moved forward into the next block and another stone was hurled at it. There was a sharp command and the car slowed down four shots were fired from the store; William Walsh, his business neighbor, from across the street, was his immediate companion, and a small crowd hung about near them. It was into this crowd that the guards fired at a range of less than twenty feet. Smith and Walsh were both shot in the abdomen, and fell where they stood. A third man, William Rooney, was slightly hurt by a glancing bullet. Some of the guards stepped from the car and reloaded their pieces.

The startled crowd fell back after the first shot and a moment later the guards sprang aboard the car and were rapidly wheeled from the scene. Smith and Walsh were hurried away to their residences and angry citizens swarmed in the street to denounce the guard. Smith is member of the shoe manufacturing firm of Smith & Herrick, and a citizen of wealth, respectability and prominence. He is a member of the Albany Club, which is one of the best of the city. He is fifty years of age and has a family. Walsh is the head of a plumbing house and is well known in business circles. Neither man had any part other than as spectators in the demonstration that provoked the shooting.

The remainder of the cars made the run to North Albany and back without trouble and when they reached the Quail-street barn were housed for the night. When the cars were all in the guards in the street were recalled.

FAVORS SHIP SUBSIDIES.

Minister Congers on the Status of American Commerce in the East.

NEW YORK, May 16.—E. H. Conger, minister to China, was the guest of honor to-night at the third annual banquet of the American Asiatic Association, given at Delmonico's. There were one hundred and twenty-five present. Acting President S. D. Brewster, was chairman and toastmaster. In the course of his remarks, Mr. Conger, after discussing general conditions and alluding, in glowing terms, to the prospects for effective commercial and philanthropic work in China, said: "It is to be regretted that some sort of measure in aid of American shipping did not pass the last Congress. In my judgment, this is not a political, but a patriotic measure and is demanded in order to fairly meet competition of shipping subsidized by other governments. This is being done all over the world and unless our people take advantage of the conditions created by the expansion policy of the last three years they will soon be pre-empted by foreign companies and lost to us forever."

AGREEING TO DEMANDS

MANY MANUFACTURERS GRANTING INCREASES TO MACHINISTS.

President O'Connell Says About 25 Per Cent. Have Given In—Black-List Held to Be Lawful.

WASHINGTON, May 16.—Late advice received by President O'Connell, of the Machinists' Association, indicates that about 25 per cent. of the employing machinists throughout the country have agreed to the demands for fewer hours and increased pay. Contrary to an opinion which prevails in some quarters, President O'Connell says there has been no new order issued from headquarters regarding Monday's proposed strike in the order heretofore issued.

CINCINNATI, May 16.—Several prominent labor leaders are expected here the latter part of this week to manage the affairs for the machinists throughout the country if they go on strike on Monday next. Not only Samuel Gompers and Thomas Kidd, of the American Federation of Labor, will take part in the struggle, but it is said that the best leaders from all the national unions of the East will be ordered to Cincinnati, from whence the fight throughout the country will be managed.

Mr. Gompers will arrive here Sunday, and P. J. Conlon, of the machinists' executive board, will leave for the city on Monday. The strike will arrive from Louisville Saturday.

ST. JOSEPH, Mo., May 16.—Six hundred machinists in the St. Joseph & Grand Island Railway shops, located here, were on strike today, because of a refusal to grant a 25 per cent. increase in pay for overtime. There will be no strike in any shops here Monday, as the National Machinists' Association for scale advances are complied with.

BLACKLIST UPHOLD.
Employers May Boycott Persons Who Have Caused Trouble by Striking.

CHICAGO, May 16.—In the Superior court today Judge Baker decided that it is legal for employers to maintain a blacklist. The ruling was in the case of Annie Condon against Libby, McNeill & Libby, Armour & Co. and other stock and packing firms. The plaintiff was a labeler and can painter in the employ of the Libby firm and in 1896, in company with a number of other women, went on strike because of repeated reductions in wages. Later the women tried to obtain employment with other firms, but their applications were rejected on account of their having been strikers. Miss Condon began suit as a test, and the court ruled that the various firms had a right to take protective measures against persons who had quit the employment of one firm and then applied for work with another, by which an employee who leaves one firm and is kept out of employment in his or her trade by the blacklist, has been given legal standing by the courts.

Nine-Hour Day for 1,400.
PITTSBURGH, Pa., May 16.—The Westinghouse Machine Company, to-day, as a voluntary movement, posted notices announcing that, commencing to-morrow, its 1,400 employees will work but nine hours a day instead of ten as heretofore. The week's work will be fifty-four hours, and all overtime work will be paid for at the rate of one and one-half times the regular rate. The move is the first time in a Western country that a "blacklist," by which an employee who leaves one firm and is kept out of employment in his or her trade by the blacklist, has been given legal standing by the courts.

Strikes and Other Labor Notes.
W. T. Newman, of Denver, Colo., was last night elected fourth vice grand in Milwaukee. This is the new office created by an amendment to the constitution of the Brotherhood of Carpenters and Joiners. The election will be held in Denver.

The Portland mine, employing 700 men, has closed indefinitely, owing to trouble with the miners. The mine is owned by the United States government and the miners are organized in the United Mine Workers' union. It is not believed the trouble will spread to other mines in the Cripple Creek district.

The clear makers who went on strike at Tampa because of being over which many of the employees on their way to work was not kept in good repair returned to work today. The strike was called by the union because of the refusal of the clear makers to work on a pontoon bridge across the river, and the men will use it instead of the ferry, as at present.

The Mill and Smeltermen's Union, of Butte, Mont., has made a demand for a general eight-hour day for all employees in the industry. The demand has been refused by the Butte & Boston and Colorado Mining companies. It is said that Senator Clark's company will also refuse to accede to the demand.

The miners of the Ninth United Mine Workers' district announced at the action of the Pennsylvania State Senate in returning to committee for amendment the bill for the purpose of amending the act relating to the mining industry. The bill was introduced by Senator J. Hartman, of the Shamokin district, and says the bill will pass the Senate in its original form. The bill provides for the miners to Harrisburg will be ordered.

A new ultimatum has been issued by the New York Mason Builders' Association to the Bricklayers' Union. A brief meeting of the association it was decided to extend until Friday the time for its ultimatum to again shut down unless all strikes are declared in order to receive the bricklayers' excuse for saying that they did not get fair notice.

Tried to Extort Money by Threats.
ST. JOSEPH, Mo., May 16.—Thomas Ashton, a wealthy stockman, living south of this city, received several letters threatening him with the seizure of his property unless he paid \$10,000 in gold at a designated spot. Detective watched a decoy placed at the spot and early this morning captured the writer, who proved to be William Frisman, a St. Joseph man, who confessed that he got the idea from the Cuddy case in Omaha.

Special to the Indianapolis Journal.
FORT WAYNE, May 16.—Indianapolis went down before Fort Wayne today by a score of 5 to 2. It was the most brilliant game of the season. Fricken, who was the first of the series for Fort Wayne, was again in the box and was even more of a puzzle than ever to Watkins's men. He held them down to six hits, three of which were two-baggers and the others scratches.

In the eighth, at a critical point, he fielded the ball to the second baseman, who threw to first, making a lightning double play. Alloway pitched good ball, but the hits were lucky and counted for the home team. G. Miller spoiled a chance to increase the score by leaving third base before the fly in center was caught. He was called out by the umpire, which raised a commotion among the spectators.
